Custom Designed Display Solutions

Capabilities

Online Display is the ultimate culmination of over 20 years of proven excellence in the design, construction, project management and fulfillment of custom modular exhibit solutions.

A fusion of art and architecture... A union of passion and technology ... A synthesis between message and medium...

Online Display is the point at which something begins...

Only Online Display provides you with all of the following:

- A highly acclaimed, fast, friendly and efficient sales and service team to provide solid advice and dedicated one-on-one support
- Professionally designed marketing materials to complement your company profile and give you that competitive edge
- A clear and easy to understand trade pricelist with pictures offers a simple to follow reference
- Project management and design teams with 28+ years of experience
- Using the most advanced materials and finishing available, products include, but are not limited to: custom fabric structures and extrusion based exhibit solutions, linking panels, custom back walls and flooring, hanging structures, aluminum truss, lighting, staging, and grand format inkjet graphics.

Endless Possibilities

Dream to concept, concept to design, design to production - Online Display can provide custom exhibit structures as a seamless turnkey service from concept through to production, installation, disassembly and after show storage.
